Recruitment for the Post of Head of Staff (HoS)

IDRBT - The Institute (<https://www.idrbt.ac.in/about-idrbt/>):

IDRBT, the Institute, was established by Reserve Bank of India in March 1996 as a Society (under Society Registration Act) as an apex-level Institute. The futuristic vision of RBI was to develop an Institute to function as the brain trust for adoption and absorption of technology in BFSI sector. The institute is governed by its Governing Council (GC). Shri N. S. Vishwanathan, Ex. Deputy Governor, Reserve Bank of India is the Non-Executive Chairman of GC. The Institute became financially independent since 2004.

Besides the research in emerging technologies and its integration for better adoption, during its journey the Institute has developed, ground-up, the Indian Financial Network (INFINET), Structured Financial Messaging System (SFMS), National Electronic Funds Transfer (NEFT), Real Time Gross Settlement Systems (RTGS); National Financial Switch (NFS) – for linking of ATMs, etc. The institute is also functioning as the Certifying Authority (CA) Section 3 of Information Technology Act 2000, which provides the required legal sanctity to the digital signatures based on asymmetric cryptosystems. The Controller of Certifying Authorities (CCA), MeitY, Government of India as the apex regulatory authority oversees the operation of the public key infrastructure (PKI) ecosystem, particularly concerning digital signatures and digital certificates.

Over the period, the Institute has evolved as a prime center for Research, Academics, Executive education, Consultancy, Development of standards, frameworks, IT Infrastructure, technology management and related areas for the Banking and Financial Sector. The Institute has also formed Forum for Chief Information Security Officers (CISO) as early as 2010 and thereafter Chief Information Officers (CIO) Forum (2015), Chief Analytics Officers (CAO) Forum (CAO) (2016) and recently the Fin-Tech Forum. Executive Development and Certification Programmes form an integral part of the Institute's initiatives in aiding technology absorption in the Banking and Financial Sector and keeping the sector abreast with latest technology. In addition to meet the ICT industry and banking

sector demand, the Institute launched the Post Graduate Diploma in Banking Technology (PGDBT), a full-time regular one-year programme in July 2016 to meet the emerging requirements.

Number of Vacancies : 1
